THREE CENTS

JURY IN RITCHIE TRIAL DISAGREES IN NIGHT GRILL

Crowd Presses Into Office
Of Mayor Post, Eager
To Hear Testimony.

WITNESSES DETAIL
ALLEGED QUARREL

Constable Admits He Acts
In Three Official
Roles.

After being out two hours and five minutes the jury in the trial of Earl Ritchie, charged with assaulting and threatening Paul V. Callahan on July 25, was hopelessly deadlocked last night and Mayor John W. Post, presiding, discharged them and ordered a new trial, the date of which has not yet been set.

The trial developed into one of the most interesting that have been tried in municipal court for some time. A dense crowd that packed every nook and cranny of the court room and corridors, and overflowed down into the street, hung onto every word that prosecution and defense, witnesses and the court said throughout the five-hour ordeal.

At 7 p. m. after each side had used two peremptory challenges, these men were seated as jurors: Patrick Redington, foreman; Howard Smith, Charles Linkenberger, Ralph Jackson, Edward Seoderly, Sr., and Hiram Skellsmith. Selection of the jury occupied over a half hour, one of the men drawn on the venire not arriving on time and delaying the trial until the court ordered the patrol sent after the prospective juror who was later chosen as one of the six.

Takes Over Two Hours
Testimony at the trial occupied two hours and a half. Callahan, the complainant, was the first called to testify by Atty. Hickling, state's attorney.

Callahan testified that on the afternoon of July 26 he was in the Jesse Schaffer poolroom on Main st., talking to Risty Krepps, clerk in the poolroom. Jokinely Krepps said to Callahan: "I'll bet you Cincinnati wins today."

"You had better keep quiet," said Callahan. "Here comes Officer Ritchie."

Ritchie, it seems, took exception to the use of his name and told Callahan not to use his name in the future or he would have Callahan arrested for disorderly conduct.

As an officer of the law Ritchie could have arrested Callahan, Prosecutor Hickling said, but did not, thereby proving that Callahan was not acting in a manner contrary to law.

Testimony of the witnesses revealed that Callahan then crossed to the other side of the street and up to an office on business in the First National Bank building.

Here was the place all in the court room picked up their ears and strained to hear every word of all that went on which preceded and provoked the alleged assault by Ritchie on Callahan.

Don't Talk Like Parrot
Ritchie had walked up the street to the Callahan poolroom and looked up at Callahan in the window over the bank. Ritchie, believing, he claimed, that Callahan was saying something to him, yelled.

"Come down out of there! Don't talk like a parrot. I'll knock the smile off your face."

With this invitation Callahan came down from the office, crossed the street and came over to Ritchie. Ritchie, handing his hat to Frank Hanray, who was standing near, grabbed Callahan by the shoulders and pushed him three times down the street in a manner Callahan said that not only embarrassed him but was, he thought, embarrassing on the part of an officer.

He, however, did not resist Ritchie, but swore out a warrant later in Mayor Post's court for the arrest of Ritchie.

Judge Boone and Joel Sharp, attorneys for the defense, cross-examined the five witnesses called by the state but most of the testimony they gave substantiated statements made by Callahan. Callahan's witnesses were Matson, Robert Curtis and John Hic-

PHONE MONOPOLY RAPPED IN OHIO

Findlay Man Asks Ohio
Officials To Institute
Proceedings.

Columbus, Aug. 1.—Seeking to dissolve the Ohio-Bell Telephone Co., alleging that it has "acquired a virtual monopoly of telephone service in Ohio," Attorney George H. Thelms, today filed a motion in the state supreme court for an order directing Atty. Gen. Crabbe to institute quo warrant proceedings against the company with a view to revoking its charter permitting it to operate in the state.

Attorney Thelms asserted that the common and preferred stock is held by the American Telephone and Telegraph Co., a foreign corporation. Atty. Thelms says also unsuccessful efforts have been made to force the Standard Oil Co. and later filed suits against other foreign utility concerns.

Tiny Dust Speck Cause Of Wreck Toll Of Hundred

Kreienauer, Germany, Aug. 1.
—A speck of dust, no larger than a pinpoint, flying into the eye of a locomotive engineer caused the railway catastrophe here in which about 100 lives were lost, according to investigation today.

The engineer of the Hamburg-Munich express, which crashed into a suburban train, said he was blinded by the dust as he was passing the signal post. Usually through trains do not stop here, but yesterday the stop signal was set.

JOHN TISCHLER, 65, DIES OF INJURIES

Employee Of Local Plant,
Hurt Last Week,
—Succumbs.

John Tischler, 65, who was injured in an accident at the National Sanitary plant, where he was employed, about a week ago, died at 11:30 p. m. Tuesday at Salem City hospital, where he was taken after the accident.

Mr. Tischler was born and reared in Pennsylvania. He had lived in Salem about 12 years. He had been employed at the National Sanitary Manufacturing company for a few years and at one time was employed by the Bliss company.

He was a member of the Transylvania society.

Surviving are six children: Ida and Rosa, Salem; Martin, who is employed in a shipping yard in the east; Annie of Alliance, and Clara and Katherine of Warren.

Funeral service will be held at 2:30 p. m. Friday at Emanuel Lutheran church in charge of Rev. B. E. Rutzy, preceded by a service at 2 o'clock at the home, Summit st.; interment in Grandview Burial park.

11,692 WAIFS WAIT AT DOOR OF NATION

Ten Liners Reach Coast
First, Eight Others
Follow.

New York, Aug. 1.—When Uncle Sam opened the nation's door at Ellis Island today 11,692 waifs awaited him.

During the night ten giant ocean liners had delivered his horde of immigrants under the August quota, effective at midnight.

Today eight other liners crawled through the heavy fog extending from Nantucket Lightship, 100 miles into the Atlantic, seeking to reach port with an additional 13,000 prospective citizens.

The race of the ten liners which had reached anchorage before the quarantine line before midnight was one of the most thrilling ever staged in the Narrows through which the ocean greyhounds must pass to unload their passengers.

Moore Steps Out As Head Of County Schools Yesterday

When the office of the county superintendent of schools closed Tuesday night, Superintendent J. W. Moore, who has served this county faithfully for the past five years, handed over the keys of the office to H. C. Leonard, superintendent-elect, and turned down the machinery of the schools of the county over to his charge.

Mr. Moore resigned months ago to take the superintendency of the East Palestine city schools, and Mr. Leonard was selected to take his place by the county board of education.

Mr. Moore shook hands with all the employees of the office, thanked them for their loyalty, and the newspapermen of the county said goodbye and caught the car for Leontia, where he resides.

Mr. Leonard had little to say in regard to his future policy in taking care of the county's schools. However, he indicated that the same policy taken by Mr. Moore would be continued.

Would Annul Lease Executed In 1863

Asking that a lease made in 1863 be declared null and void, Harry Boles, of Elkrun township has filed a petition in common pleas court against the Ohio Coal & Mining Co., which was a corporation in business in this county 30 years ago but now disbanded.

The original lease was given to the Chamberlain-Thomas Co. of East Palestine by Thomas Pike and later transferred to the Ohio Coal & Mining Co. Boles has purchased a part of the Pike farm and states that the lease as it now stands is a cloud on his title and he wishes it cancelled by the court.

Kryder To Address Jersey Club Meet

The Ohio Jersey club and Columbian county Jersey breeders will hold a picnic Saturday, Aug. 4 at the Brantingham farm, a quarter mile east of Winona.

Among the speakers for this event will be State Senator H. E. Kryder, Prof. Oscar Ebel and Joseph Morris, secretary of the Ohio Jersey club. A basket dinner will be served on the grounds, cafeteria style.

WHITFIELD'S HOPE TO KNOW HIS FATE SOON IS DASHED

State Cannot Close Its Case
Tonight, Counsel
Intimates.

PRISONER IS PALE
DURING TESTIMONY

Last Witness Attempts To
Get Price Testimony
To Front.

Cleveland, Aug. 1.—Announcement by the state at noon today that its case would not be complete before tomorrow dispelled hope that John L. Whitfield, on trial for the murder of Patrolman Dennis Griffin, on Monday morning of May 11 last, might know his fate before Saturday.

Testimony during the morning session of the court was devoted to two conventions and the annual election of officers of the W. C. T. U. had a busy session Tuesday afternoon at the home of Mrs. Anna Hess, Roosevelt ave. The officers re-elected are: President, Mrs. Laura Garside; vice president, Mrs. J. B. Zeigler; recording secretary, Mrs. Alice Robinson; corresponding secretary, Miss Laura Schilling; treasurer, Mrs. W. A. Leatherberry.

Whitfield was ghastly pale during the court session, and squirmed uneasily in his seat as witnesses swore to his identity.

The last witness before the court recessed was Detective Harry Brown and through him the state attempted to get statements made by Mrs. Whitfield and Marie Price before the jury.

BRITAIN HAS PLAN FOR SEPARATE PACT

News Emerges Following
Important Meeting Of
Cabinet.

London, Aug. 1.—Following a meeting of the cabinet, it was learned from semi-official sources this afternoon that Great Britain has practically decided to attempt to make a separate reparations agreement with Germany.

A strong faction of the cabinet maintained that the French note failed to advance the reparations issue towards a solution and that it was advisable for the British to send a separate note to Berlin replying to the German note of June 7.

Premier Baldwin is hopeful that a separate Anglo-German reparations agreement will not break down the Anglo-French entente.

Although the premier believes that further negotiations with France are useless, cabinet members will confer almost continuously for the next 24 hours framing a statement which may induce France to renew diplomatic conversations in a more conciliatory mood. The premier will make his statement in the house of commons tomorrow, according to present plans.

Three Races Carded For Labor Day Meet

Three races, a 2:25 pace, a 2:25 trot will comprise the card at the Labor day race to be given at the county fair ground by the Lisbon Driving club September 3.

The program was made out Tuesday evening at the city hall by members of the club. After all preliminary work had been done, George Rogers president of the Driving club appointed committees and further arrangements will be completed by them.

William Morgan and Charles Felton are a committee to make arrangements for a double-header baseball game to be held in the middle oval during the meet. Bands will be engaged and every one will be invited to be present.

Marie Price Gets Threats In Letters

Cleveland, Aug. 1.—Threats and commendation for her action in testifying against John L. Whitfield were received by Marie Price at her hotel today, as she rested before returning to the obscurity which will be her following her brief appearance in the limelight. "You yellow cur," one letter began, while another, commending her action, warned her that a certain person was being paid to "get her."

Labor Day Program Planned At Lisbon

Members of the Lisbon Driving club and others who are interested in Labor day celebration met in the city hall last night. It is planned to have three races, the classes to be announced later. A ball game and possibly a parade will be added features. The race meet was postponed from July 4 because improvements at the local fair grounds had not been completed.

Six Are Burned In Timken Plant

Canton, Aug. 1.—Six workmen were seriously burned at the Timken Roller Bearing plant shortly after 5 o'clock Tuesday afternoon when lightning struck a high tension wire and exploded a large transformer, spitting burning oil over the men working at a furnace 30 feet away.

Pickpocket Takes Wallet At Trial Of Constable Here

Taking advantage of the crowd that packed the court room someone "lifted" a pocket-book and keys belonging to one of the spectators. It is believed that after his haul the thief on making his escape from the room dropped the wallet, evidently afraid that someone had seen him. Policemen on duty at the trial found the wallet on the floor and combed the city hall and vicinity for the pick-pocket who, probably caused long before the theft was noticed.

W. C. T. U. CHOOSES OFFICERS FOR 1923

Mrs. Laura Garside Named
President At Tuesday's
Meeting.

With the election of delegates to two conventions and the annual election of officers of the W. C. T. U. had a busy session Tuesday afternoon at the home of Mrs. Anna Hess, Roosevelt ave. The officers re-elected are: President, Mrs. Laura Garside; vice president, Mrs. J. B. Zeigler; recording secretary, Mrs. Alice Robinson; corresponding secretary, Miss Laura Schilling; treasurer, Mrs. W. A. Leatherberry.

Mrs. Garside has an unusual attendance record in the union, having not missed a meeting for 19 years.

Delegates to state convention, Miss Schilling and Mrs. Hess, alternates, Mrs. Garside and Mrs. Leatherberry. The state convention will be at Columbus in September. The national convention will be in that city just following the state meeting, thus giving the state delegates a privilege to attend the national assembly.

The county convention will be held Tuesday and Wednesday, August 7 and 8, at Rogers. Salem women who hold office in the county organization are: Mrs. Garside, Mrs. Catherine Finney, Mrs. J. R. Stratton and Mrs. Hess. Delegates chosen were:

Mrs. Charles Monroe, Mrs. Flora Baker, Mrs. J. B. Zeigler, Mrs. George Mountford, Mrs. A. W. Starbuck, Mrs. Robinson, Mrs. Della Fidler and Mrs. John Wagner.

Mrs. L. M. Kyes, East Palestine, county president, was at the meeting and gave a talk along the line of the work for the organization.

A meeting in two weeks will be at the home of Mrs. Garside, Liberty st.

TWO PERSONS DIE IN MARYLAND FIRE

Three Others Are Badly
Burned, Dwelling Is
Partly Wrecked.

Hagerstown, Md., Aug. 1.—Two persons were burned to death and three others injured, so badly that they will die in a fire at 6 o'clock this morning, which partially wrecked the dwelling at 255 North Locust st.

The dead are: Mrs. Ida Carbaugh, 74; Geraldine Carbaugh, 16, her granddaughter. The injured, all of whom are at the hospital, are: Mrs. Pearl Jacobs, 35, mother of the dead girl, broken legs and severe burns; Katherine Jacobs, 11, badly burned body; John H. Carbaugh, 58, seriously burned.

The fire started in the kitchen. Geraldine Carbaugh was making a fire in the cook stove for the family breakfast. A can of oil she held in her hand near the blaze overturned and exploded. The flames spread rapidly. The girl was found later by fireman, burned to a crisp, lying beneath the sink in the kitchen with her feet propped against the wall.

Mrs. Carbaugh was a paralytic. She had not moved for years. With the exception of Geraldine, the family was asleep when the fire started. Mrs. Jacobs was the first to awaken. She screamed and rushing to the front window, jumped two stories to the yard.

German Monarchist Activities Denied

Amsterdam, Aug. 1.—Dutch newspapers today indignantly denied that German monarchist activities are in progress at Doorn, where the former Kaiser is living in exile. It was pointed out that Doorn and Wieringen, where the ex-crown prince is living, are under surveillance by the Dutch government and that no such activities would be allowed.

Dr. Cook Indicted On U. S. Mail Charge

Los Angeles, Aug. 1.—Thirty-one persons, including Dr. Frederick A. Cook, famous "discoverer of the North Pole" were charged with using the mails to defraud, in two indictments returned by a federal grand jury after two weeks investigation of alleged Texas oil swindling operations and placed on file today.

Salem Teacher Will Go To East Palestine

Ralph Ovington, Salem, was elected science teacher in the East Palestine High school at a recent meeting of the board of education of that city. Mr. Ovington was graduated from Salem High school, and Ohio university, at Athens. Last year he taught in the High school at Cuyahoga Falls.

Two Millions Walk To Work In Jersey As Cars Are Idle

Strike Of 6,300 In Effect At
Midnight Paralyzes
Traffic.

THIRTY PER CENT
INCREASE ASKED

People In 145 Municipalities
Of State Are Affected.
By Ticiup.

Newark, N. J., Aug. 1.—Two million workers in 145 New Jersey municipalities walked to work this morning. The strike of 6,300 motormen, conductors and shoptmen, employed by the Public Service Railway company, went into effect at midnight. The strikers demand a thirty per cent wage increase.

Not a wheel turned on the trolley company's entire system, Thomas McCarter, president of the corporation said this morning. City officials in Jersey City, Newark, Camden, New Brunswick, Paterson, Elizabeth, Hoboken, Dunellen, East Orange and scores of similar communities, took command of the situation in their localities. They put automobiles, motor trucks, buses and even wagons into service in an effort to relieve the situation.

The district affected employees approximately 1,500,000 workers in about 5,000 manufacturing plants, including the central establishments of many of the nation's greatest industries. Another 500,000 use the trolleys daily commuting to New York.

The opening of the strike was without disorder. That the trial will continue over a long period was the prediction at both the office of the street car company and the union. As each car was run into the barn at midnight company men began the removal of fare boxes, brake apparatus and control boxes from the cars, indicating the trolley corporation would make no effort to resume service with strikebreaking crews.

All police leaves have been cancelled in the 145 cities affected. A mass meeting of all strikers was called for today.

MORE DEMOCRATIC COCKADES, OUTLOOK

Underwood's Entry Into
Presidential Race To
Spur Others.

Washington, Aug. 1.—Now, that Senator Oscar W. Underwood, of Alabama, has started the ball rolling by announcing himself as a candidate for the Democratic presidential nomination next year, it was fully expected here that other Democratic leaders who have an eye on the White House would lose little time in getting their hats into the ring.

So much concerned has everyone in Washington been over the illness of President Harding that politics has slipped temporarily into the background and the Underwood announcement in Montgomery did not provoke the widespread discussion and comment that would have been looked for under different circumstances. Then too, the announcement did not come wholly as a surprise, as Senator Underwood has been regarded for a number of years by a large number of Democrats as a presidential possibility and his candidacy in 1924 was looked upon in some quarters as a certainty.

Barnes Circus Will Show Here Aug. 30

Announcement was made by the advance agent that the Al. G. Barnes circus, said to be one of the largest on tour, will show in Salem Aug. 30. The date was set tentatively until a field can be secured for the show.

Race Track Arrests Seen

Cleveland, Aug. 1.—Other arrests here and at Columbus impend today in connection with the workings of an alleged ring said to have been engaged in doping horses on mile and half miles tracks in Ohio.

PASSES RESTFUL NIGHT

Warren G. Harding

HARDING AWAKES, FEELS REFRESHED, DOCTORS PLEASED

Steady Gains Are Seen In
President's Condition,
Bulletin Says.

"WELL PAST CRISIS"
SAYS GEN. SAWYER

Executive Enjoys Reading
Newspaper For Word
Of Illness.

San Francisco, Aug. 1.—President Harding is well started on the road to recovery today.

His physicians are frankly anticipating a slow but steady improvement from day to day. Whatever doubts they may have had about his ability to pull safely through the complication of diseases has been dispelled.

Barrying any unforeseen and at this time wholly unexpected setbacks, the recovery of the president is now assured, according to the physicians.

"Everything indicates he is past the crisis," said Dr. Charles E. Sawyer, chief of the attending medical staff.

The official medical bulletin issued at 10:12 this morning on President Harding's condition follows:

At 9:30 a. m. the president was fairly comfortable this morning after a few hours sleep. His breathing is less labored and there is but little cough. The lung condition is about the same as yesterday. He is still much exhausted.

President Harding awoke shortly before 7 o'clock. Dr. Joel T. Boone, one of his physicians, who was on night duty, was the first person to see him after he had awakened.

The chief task of the five physicians now is to guard against any setbacks. They apparently are entirely confident of his ability to do this. There will be no relaxation of vigilance, however for some days yet.

It was significant of the president's great improvement today that members of his party began active speculation as to when it will be possible for the chief executive to return to Washington.

The doctors themselves, with that caution which governs their every action and utterance concerning the date. This feature, they said, is relatively unimportant. There is reason to believe, however, that it things continue well, and the president continues to make the gains already noted, another week will see him ready to start the long railroad journey back to the capital.

It is not improbable that this journey, when begun, will be made by easy stages. It has been suggested that to make the journey, the special train forego travelling at night, thus affording the president every chance for the restful nights of which he stands so greatly in need in his present weakened condition.

The president is taking a cheerful interest in the scientific aspects of his own case, affording some quiet amusement to the doctors. He sends out regularly for the newspapers both morning and afternoon and reads the lengthy accounts of his own illness before turning to other news. Baseball claims him next.

Once Nursed Warren; Gets Second Chance

San Francisco, Aug. 1.—By peculiar coincidence, President Harding has two nurses near him while he is ill here. One of them, Miss Ruth Powe, formerly known as the presidential nurse, because she was selected to nurse President Wilson and later to care for Mrs. Harding during her critical illness a year ago is in full charge of the sick room. She ranks high in naval nursing.

Just across the bay, in Oakland, is one of the president's first nurses. She is Mrs. Sarah E. Stevens, 83, who back in Blooming Grove, Ohio, was the closest friend of Phoebe Elizabeth Dickerson, who later married Dr. Harding and became the mother of President Harding.

"My prayers have been answered," she said today when told he was improving.

Tokyo, Aug. 1.—Great interest in President Harding's illness exists in Japan.

It was learned today that the foreign office has made frequent calls upon the American embassy for information regarding the president's progress and details of his illness, unofficially expressing the deepest interest and regret.

AKRON IN DEFIANCE OF NEW BUS LAW

City Council To Retain Control
Of Own Traffic
Problems.

Akron, Aug. 1.—Defying the Freeman-Collister law giving control of buses to the public utilities commission, at Columbus, councilmen of Akron have decided to retain control of all such vehicles traveling local streets. In adopting resolutions Tuesday at this effect, it is assumed that the law does not affect cities under the charter for not government. The resolution also expresses a doubt that the state can take from cities the right of control of their own traffic.

STILL MORE ABOUT "GAS"

In a former article, I stated that

many people who thought they had

indigestion or some serious condition

of the stomach because they were

belching gas so frequently, were sim-

ply expelling air from the stomach

This "swallowed" gas is without

odor of any kind.

I have advised from time to time

that a little "roughage" in the food

like turnips, parsnips, carrots, cab-

bage and spinach would be sufficient

to slightly irritate the intestine and

cause the contents to move along, thus

preventing constipation.

I have likewise advised thorough

chewing of this food so as to break

everything up as fine as possible to

make things easier of digestion. Now

there is just this to be said about the

rough foods that if not well digested

there is bound to be considerable gas

formation and consequent distress.

It is found that the covering of the

starch granule in the vegetable is

not destroyed, and so the starch goes

through the small intestine undigest-

ed. This means considerable gas forma-

tion.

Now the formation of gas is a nor-

mal condition, and if you are in good

health the blood as it circulates path-

ers ers this up, takes it to the

lungs, and you breathe it out as part

of your circulation is a little slow, you

are "run down" in health generally,

everything about that body of yours

will be working just a little below

normal.

Your stomach action will be slower,

your digestive action in small intes-

tine will be weaker, your power to

throw off waste matter will likewise

be below normal.

So the advice I want to give just

here is this.

Raw foods are excellent in many

ways, but if you are bothered with

excessive gas formation, due to a

generally lowered body condition with

poor circulation, it would be well to

have your vegetables thoroughly cook-

ed, so that your digestive juices

would have an easier time in getting

at the granules of food.

The first steam locomotive ever

seen on the American continent was

built by George Stephenson in England

and brought to New York by the Del-

aware and Hudson canal company in

WORLD'S LARGEST TESTING MACHINE

HAS A CAPACITY OF 10,000,000 POUNDS AND IS OWNED BY BUREAU OF STANDARDS.

PART OF WONDERFUL PLANT

Uncle Sam's Experts Manufacture Cement, Rubber, Leather, Paper, Textiles and Other Products, and Solve Many Problems.

By EDWARD B. CLARK
Washington.—The most complete composite manufacturing plant in the world, where the manufacturing processes of cement, leather, rubber, paper and textiles are duplicated on an experimental scale, is now being operated by Uncle Sam in the bureau of standards. In this plant also tests of the most practical character are made on the finished product during the investigation of the design, fabrication, uses and properties of structural and miscellaneous materials such as metal, wood and concrete structural shapes, cement, stone, lime, gypsum, etc.

Included in this equipment is the largest testing machine in the world, which the bureau of standards has been called upon to use only once to its full capacity, because the majority of columns or fabricated units now in service seldom withstand a load of more than 5,000,000 pounds. This particular machine has a crushing capacity of 10,000,000 pounds. Another has a compression capacity of 2,300,000 pounds, and a capacity in tension of one-half this figure.

Machines Specially Made.

Some of the machinery is specially designed for studies of such materials as steel cables, manila rope, brick walls and columns, concrete and gypsum blocks, etc.

With such machines it is possible to determine not only the strength of the materials entering into a steel or concrete column, for instance, but also the strength and deformation under different loads of the completed column as well.

This work is of great interest and value to manufacturers, especially of the various commodities concerned. Every line of work thus undertaken has its own particular advisory committee, composed of representatives of the manufacturers in the field of industry which it affects.

These representatives meet at the bureau of standards at frequent intervals and discuss the progress of the researches being carried out. At the same time, to preserve a proper balance, close contact is maintained with the consumers of the commodities manufactured by these industries. In this way two sets of interests are brought together in the study of those problems in which both are interested from different viewpoints.

Among the problems now being considered are the durability of various types of building stone, a study of the theory of reinforced concrete design, a study of the proportioning of concrete, studies of cement control, uses of lime and gypsum products, studies of the constitution of portland cement, of the comforting and wearing values of fabrics, the simplification of paper sizes, of the power loss in tires through interior friction, and the relative wear of leather produced by different methods of tanning.

Operate Paper Mill.

Paper is being made at the bureau of standards in a mill in which any of the customary processes can be reproduced. In this mill experiments are made with a view to studying the effect on the finished products of different variables in plant procedure. New raw materials and new processes are experimented with and lots of paper made for investigation and use.

In another part of the plant is a mill in which similar studies relating to the textile industry are carried out. Here they start with the bale of cotton and end with the finished thread, yarn, cloth or hosiery.

Leather soles and rubber tires are given such wearing tests as furnish comparative measurements of their durability in actual service. An apparatus is in use which shows not only the amount of energy absorbed by a tire in use, but also demonstrates the advantage of a cord over a fabric tire.

Studies of new types of tanning materials or new ingredients for rubber goods are made with special reference to their durability in service. To this end the tanning and working of leather and the compounding and vulcanizing of rubber are also carried out to a plant scale.

Improved Dyeing Process.

Reclamation of wearing apparel has awakened interest in the Batik process of dyeing, which, according to the chemists, originated in Java. The fabric is covered with a thin coating of wax before it is plunged into a bath of dye. The Germans and other Europeans maintain that they have greatly amplified and perfected the process and by means of their improved method certain tissues that formerly would not take colors are now capable of being dyed. Old stuffs, blouses, stockings, hats and so forth can, it is said, be redyed in a lighter as well as a darker color or can be changed completely.

Persons who want anything know that The News is the Want Medium in this vicinity. So read it.

FIRST PHOTOGRAPH OF VILLA'S MURDER

Here is the first photograph of the assassination of Francisco ("Panchito") Villa, former famous Mexican bandit chief, who was shot to death in his automobile in Parral, Chihuahua, Mexico, by six men. Trillo, the bandit's secretary, also met death. Trillo's body is shown sprawling over the side of the automobile, while that of Villa is slumping down over the steering wheel.

WALES WILL VISIT RANCH IN CANADA

Prince To Get Taste Of Real Wild West "Roughing It" While At Alberta.

Winnipeg, Man., Aug. 1.—The Prince of Wales is going to get a taste of roughing it when he visits his ranch in Alberta during the early autumn.

In the interests of privacy he will travel as the Duke of Cornwall. His stay will be comparatively short, and he will not accept official engagements of any kind whatsoever while in Canada.

Cattle, sheep and horses are raised upon the royal or E. P. ranch, at Pekisko, in the foothills of the Rocky mountains. It is conducted scientifically under the management of Prof. W. L. Carlyle. But there is enough of the old "wild west" left to give the prince a good idea of the old days when the cow puncher was king.

Lonco busting is not yet a lost art on the Western Canadian prairies, although the cowboys are not so picturesque as they once were. The prince will have an opportunity to see some fancy riding far different from that on the bridle paths of London parks.

There are several thousand acres of land in the prince's ranch, with about 200 under cultivation for supplementary winter feed.

The prince is keenly interested in stock raising and sent a number of stock farm, in Cornwall, to Canada. He will inspect his ranch in detail and offer what assistance he can to foster stock raising in Canada.

Persons who want anything know that The News is the Want Medium in this vicinity. So read it.

COLUMBIANA SELLS SCHOOL BUILDINGS

Columbiana, Aug. 1.—Two portable buildings formerly used by the grades of the local schools were sold Saturday at auction. One building brought \$215 and was sold to Lester Harrold. The other was sold to Austin Hannum for \$310.

Friends in Columbiana have learned of the death of Cyrus Southerland in Leetonia with much regret. Mrs. Southerland who was formerly Miss Lena Klingbecht was for several years employed in the offices of the Columbia Tire & Rubber Co.

D. W. Benninghoff and C. S. McGrath went to Clarksburg, W. Va., Tuesday on business.

Miss L. L. Snyder of Cleveland was calling on friends the last of the week.

Prof. H. A. Tuttle and family returned from Dexter City, Ohio, where they spent two weeks visiting Mr. Tuttle's parents.

Prof. A. Y. Taylor of Rogers, entertained a number of his old friends at his home Sunday. Among those from Columbiana attending were Mr. and Mrs. W. A. Lyder and son Lemuel.

Mr. and Mrs. George McMillan of Minerva, were week end guests of D. W. Benninghoff.

Atty. H. W. Hammond is making his residence attractive by a coat of paint.

Atty. C. W. McKain has gone to Missoula, Mont. in response to a telegram that his father, F. P. McKain, was seriously ill. His father is a Civil war veteran and 81 years of age.

Mr. and Mrs. Charles Jameson of Canton, were week end guests of C. E. Smith and family.

Howard Groner motored to Cleveland and spent the week end with friends.

Leo Holloway leaves Wednesday

for Fremont, O., where the reunion of Company G, 329 infantry, will be held. Mr. Holloway will visit Toledo and Cleveland before his return home.

Mr. and Mrs. J. C. Smith of Pittsburg, were recent guests of their niece, Mrs. Leo Holloway and family.

Mr. and Mrs. H. C. Todd and Mr. and Mrs. Clyde Haddley were at Brady's Lake Sunday.

A special meeting of the American

Legion at their hall on Friday night to consider the advisability of holding a street fair this fall in Columbiana.

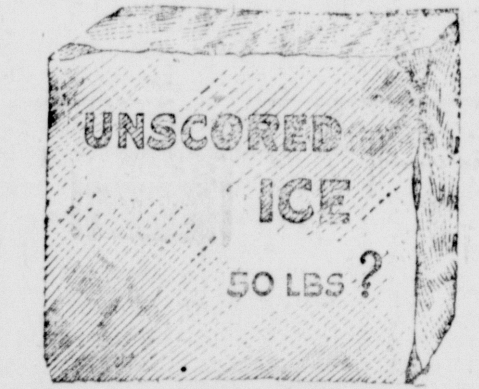

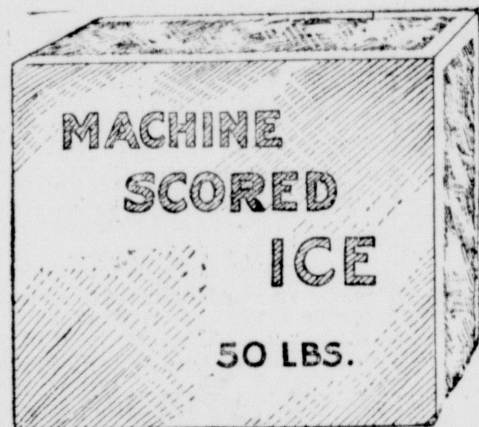

DOES YOUR BACK ACHE?

It's usually a sign of sick kidneys, especially if the kidney action is disordered, passages scanty or too frequent. Don't wait for more serious troubles. Begin using Doan's Kidney Pills. Read this Salem man's testimony.

James Callahan, 245 East High st., says: "My back got so bad about two years ago, I could hardly get up or down. Sharp twinges caught me in the small of my back and just about floored me. I could hardly rest at night, as the pains were so severe. When I got up, I was all tired out because of the sharp pains. My kidneys bothered me a lot by acting too freely and then again, being sluggish in action. I was told to use Doan's Kidney Pills and got a box. They made my kidneys work in A-1 shape. I always keep a box on hand to keep my kidneys in good shape."

Price 60c at all dealers. Don't simply ask for a kidney remedy; get Doan's Kidney Pills—the same that Mr. Callahan had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

STILL MORE ABOUT "GAS"

In a former article, I stated that many people who thought they had indigestion or some serious condition of the stomach because they were belching gas so frequently, were simply expelling air from the stomach.

This "swallowed" gas is without odor of any kind.

I have advised from time to time that a little "roughage" in the food like turnips, parsnips, carrots, cabbage and spinach would be sufficient to slightly irritate the intestine and cause the contents to move along, thus preventing constipation.

I have likewise advised thorough chewing of this food so as to break everything up as fine as possible to make things easier of digestion. Now there is just this to be said about the rough foods that if not well digested there is bound to be considerable gas formation and consequent distress.

It is found that the covering of the starch granule in the vegetable is not destroyed, and so the starch goes through the small intestine undigested. This means considerable gas formation.

Now the formation of gas is a normal condition, and if you are in good health the blood as it circulates gathers this up, takes it to the lungs, and you breathe it out as part of the waste of the body. However, if you are "run down" in health generally, everything about that body of yours will be working just a little below normal.

Your stomach action will be slower, your digestive action in small intestine will be weaker, your power to throw off waste matter will likewise be below normal.

So the advice I want to give just here is this:

Raw foods are excellent in many ways, but if you are bothered with excessive gas formation due to a generally lowered body condition with poor circulation, it would be well to have your vegetables thoroughly cooked, so that your digestive juices would have an easier time in getting at the granules of food.

The first steam locomotive ever seen on the American continent was built by George Stephenson in England and brought to New York by the Delaware and Hudson canal company in the year 1829.

Psychologists, philosophers and lawyers have undertaken to explain the lure of the game. Too easy! It is varied, yet simple; easy to play, difficult to play well; individual, but highly competitive; and though if one chooses it is a tax on the strongest physique, also if one chooses it can be played happily with no training whatever.

No more could be asked, and no more is asked. We are a nation of golfers.

Appreciating Music

TWO ideas, fairly tried in the American mind, have exploded by Ossip Gabrilowitsch, noted pianist and conductor.

We are in the habit of believing that the American public is not really appreciative of good music, and that European musicians come here rather condescendingly, chiefly in search of our money.

Gabrilowitsch says both these beliefs are unfounded.

There is great appreciation of music here. He says: "Throughout America, even in towns not on the map, are musical clubs, community choirs, efforts toward a town band or orchestra."

European musicians come here because our people show this deep appreciation. He says: "It isn't the American dollars alone that call foreign musicians to these shores. It is the realization that in America is that spirit of 'absorption' of good music, the willingness to listen, to learn and to make it part of each individual's every-day life."

There is real significance in both these assertions.

Smoke Screen From Seaplane.

The use of dense smoke clouds by naval vessels for the purpose of screening battleships from the enemy, has been practiced for a long time. Fast destroyers are usually employed to lay the cloud of heavy smoke, which is produced by regulating fuel and draft in the main boilers. Recent tests, however, have proved the efficacy of seaplanes in this respect. In fact, the seaplane has at least two advantages over the destroyer: It can lay a screen much more rapidly; it can regulate the height of the screen above water, and may make it completely envelop an object by flying over and around the latter. When a seaplane is used for laying the screen, the smoke results from the introduction into the exhaust pipe of chemicals that increase the volume as well as the density of the exhaust gases.

No Vacation for Me

THE last hours before you went away (that night you worked so late getting the trunk closed) and the first moment you entered the house on your return, electric service was on the job.

Had you come home unexpectedly a week or a day sooner, the light would have been there just the same, to welcome you at a touch of a button in the hall.

Ice, milk, provisions, the daily paper—all these had to be gathered together again from several sources. But electricity was waiting. No vacation * * no holidays * * no afternoons or evenings off. Seven days a week, twenty-four hours a day electricity works for you. What servant or other employee keeps as long hours and renders as great service at the price?

WORLD'S LARGEST TESTING MACHINE

HAS A CAPACITY OF 10,000,000 POUNDS AND IS OWNED BY BUREAU OF STANDARDS.

PART OF WONDERFUL PLANT

Uncle Sam's Experts Manufacture Cement, Rubber, Leather, Paper, Textiles and Other Products, and Solve Many Problems.

By EDWARD B. CLARK

Washington.—The most complete composite manufacturing plant in the world, where the manufacturing processes of cement, leather, rubber, paper and textiles are duplicated on an experimental scale, is now being operated by Uncle Sam in the bureau of standards. In this plant also tests of the most practical character are made on the finished product during the investigation of the design, fabrication, uses and properties of structural and miscellaneous materials such as metal, wood and concrete structural shapes, cement, stone, lime, gypsum, etc.

Included in this equipment is the largest testing machine in the world, which the bureau of standards has been called upon to use only once to its full capacity, because the majority of columns or fabricated units now in service seldom withstand a load of more than 5,000,000 pounds. This particular machine has a crushing capacity of 10,000,000 pounds. Another has a compression capacity of 2,300,000 pounds, and a capacity in tension of one-half this figure.

Machines Specially Made. Some of the machinery is specially designed for studies of such materials as steel cables, manila rope, brick walls and columns, concrete and gypsum blocks, etc.

With such machines it is possible to determine not only the strength of the materials entering into a steel or concrete column, for instance, but also the strength and deformation under different loads of the completed column as well.

This work is of great interest and value to manufacturers, especially of the various commodities concerned. Every line of work thus undertaken has its own particular advisory committee, composed of representatives of the manufacturers in the field of industry which it affects.

These representatives meet at the bureau of standards at frequent intervals and discuss the progress of the researches being carried out. At the same time, to preserve a proper balance, close contact is maintained with the consumers of the commodities manufactured by these industries. In this way two sets of interests are brought together in the study of those problems in which both are interested from different viewpoints.

Among the problems now being considered are the durability of various types of building stone, a study of the theory of reinforced concrete design, a study of the proportioning of concrete, studies of cement control, uses of lime and gypsum products, studies of the constitution of Portland cement, of the comforting and wearing values of fabrics, the simplification of paper sizes, of the power loss in tires through interior friction, and the relative wear of leather produced by different methods of tanning.

Operate Paper Mill. Paper is being made at the bureau of standards in a mill in which any of the customary processes can be reproduced. In this mill experiments are made with a view to studying the effect on the finished products of different variables in plant procedure. New raw materials and new processes are experimented with and lots of paper made for investigation and use.

In another part of the plant is a mill in which similar studies relating to the textile industry are carried out. Here they start with the bale of cotton and end with the finished thread, yarn, cloth or hosiery.

Leather soles and rubber tires are given such wearing tests as furnish comparative measurements of their durability in actual service. An apparatus is in use which shows not only the amount of energy absorbed by a tire in use, but also demonstrates the advantage of a cord over a fabric tire.

Studies of new types of tanning materials or new ingredients for rubber goods are made with special reference to their durability in service. To this end the tanning and working of leather and the compounding and vulcanizing of rubber are also carried out to a plant scale.

Improved Dyeing Process. Reclamation of wearing apparel has awakened interest in the Batik process of dyeing, which, according to the chemists, originated in Java. The fabric is covered with a thin coating of wax before it is plunged into a bath of dye. The Germans and other Europeans maintain that they have greatly simplified and perfected the process and by means of their improved method certain tissues that formerly would not take colors are now capable of being dyed. Old stuffs, blouses, stockings, hats and so forth can, it is said, be redyed in a lighter as well as a darker color or can be changed completely.

FIRST PHOTOGRAPH OF VILLA'S MURDER

Here is the first photograph of the assassination of Francisco ("Pancho") Villa, former famous Mexican bandit chief, who was shot to death in his automobile in Parral, Chihuahua, Mexico, by six men. Trillo, the bandit's secretary, also met death. Trillo's body is shown sprawling over the side of the automobile, while that of Villa is slumping down over the steering wheel.

WALES WILL VISIT RANCH IN CANADA

Prince To Get Taste Of Real Wild West "Roughing It" While At Alberta.

Winnipeg, Man., Aug. 1.—The Prince of Wales is going to get a taste of roughing it when he visits his ranch in Alberta during the early autumn.

Sheridan Road at Wilson Avenue

Why not spend a few days or weeks on the famous North Shore—Chicago's vacation land? Come to the beautiful Sheridan Plaza, "Uptown Chicago's Most Favored Hotel." Bathing, boating, motoring, theatre-going, short ride to golf grounds and parks. Music and dancing every evening. Moderate rates in the restaurant and Narcissus Grill cafeteria. Eighteen minutes from downtown; elevated express and surface lines; motor busses to and from downtown, through Lincoln Park, stop at the door.

European plan. Excellent rooms, with private bath, \$3 a day and up. Reservations are advisable. Exceptional garage accommodations.

Name Your Own Play and Let Us Play Up To It!

Tennis you say? Then just listen to the racket we are making in tennis shirts, trousers and underwear.

Or, is it golf? All right—here are the same things that the big boys are bringing the low scores in with.

Horseback or horseshoes, driving, diving, dancing, croquet or checkers. It makes no difference what play you like—just name your poison and here you are.

We are prepared to furnish you with everything you need to go away or stay at home, at prices that will save you money and time.

SOCIETY

St. Paul's Choir's Banquet

A very enjoyable and successful social function of Tuesday evening was the banquet for the choir of St. Paul's Catholic church at the La Palma restaurant. There were 50 guests, including members of the new men's choir and their families, councilmen of the church and their wives, members of the old choir and their families and members of an orchestra which had helped the choir on such occasions as Christmas and Easter.

A program of toasts, which added much interest to the occasion, followed the banquet at 8 o'clock. F. J. Becker was toastmaster. Toasts were given by Rev. A. J. Manning, Mrs. F. J. Becker, Charles Cavanaugh, C. P. Mellinger and John Hundertmark.

For the remainder of the evening the company went to the K. of C. club rooms, Broadway, where the hours passed happily at dancing, cards and music.

Santee-Eliett Reunion

About 70 relatives and friends attended the Santee and Eliett family reunion held Saturday at Rockhill park. A picnic dinner was served at the noon hour, and after this a short business meeting. In the absence of the president, P. F. Transue, the meeting was in charge of Frank Transue and at this time a letter written by Dr. Ellis Santee of New York city was read. The newly elected officers are: Sylvester Santee of Damascus, president; Elmer E. Eliett of Beloit, vice president; Mrs. Hazel Haught, Alliance; secretary, and Gideon Santee of Beloit, treasurer.

Relatives were present from Damascus, Beloit, Salem, Alliance, North Benton, Franklin Square, and Sharon, Pa.

The next reunion is to be held one year at Lake Park.

Honors Miss Hise

A prettily appointed luncheon was given by Mrs. Frank Cook, East High st., Tuesday in honor of Miss Nora Hise, West Liberty, Ia. Blue flowers and blue candles in crystal holders beautified the table.

There were 12 guests and they were all girlhood friends. Those from out of town were Mrs. R. E. Spencer, East Liverpool, and Mrs. Harry Cooper, Hillsboro, N. D. Reminiscence and music added to the delightful occasion.

Housewarming at Cowgills

Mr. and Mrs. V. A. Cowgill were surprised Tuesday night when 25 of their friends called unexpectedly to observe the occupancy by Cowgills of their new home, formerly the Young property, in Gardfield ave.

Cards and games were favored forms of entertainment and the guests took with them provisions for a delicious lunch.

At Wilson Home

Club associates of Mrs. C. M. Wilson were her guests at luncheon Tuesday at her home, McKinley ave. Bridge was a diversion of the afternoon at which Mrs. C. E. Bartholomew was awarded the honor. Mrs. Kile, Oakland, Calif., was given the guest prize. The club will not meet during August.

Miss Thompson Hostess

Bridge was a favorite diversion when club associates of Miss Lena Thompson gathered Tuesday evening at her home, East Fifth st. The hostess served refreshments. A meeting in two weeks will be with Miss Ellen Windle, Cleveland ave.

Merry Maids Class

Mrs. Elizabeth Gardner will entertain the Merry Maids class of the First Friends church, taught by Miss Mary Lewis, Thursday evening at her home, 72 West Green-st.

Mr. and Mrs. Carl Weiner and son Ralph, Mr. and Mrs. John Wonseller and daughter Alberta, Harvey Trotter and Harvey Mackerel of Columbus, and Mrs. William Lauten and daughter Hazel, of Youngstown, and Ray Rock of New Middleton were guests at the home of John Tullis, South Union st., Sunday.

W. W. Burns and Mrs. W. H. Voneman, Salem, and Mr. and Mrs. Harvey Lamonte, Franklin Square, have gone on an automobile trip to Waterloo, Ia. They will be accompanied home by Eldon Voneman, who has been visiting at St. Paul, Minn.

Miss Kathryn Bundy is taking a three weeks' vacation from her duties at the Salem City hospital, where she is training for a nurse and left Tuesday for Canton to spend a week with relatives.

Word has been received that Carl Schmid, Eugene Leipper and Joseph Bartholomew who left a few days ago for Los Angeles, Calif., by automobile, have reached Omaha, Neb.

Mrs. R. W. Hawley, East School st., and guest, Mrs. H. C. Ostermann, of East Liverpool, have returned from Cedar Point, where they spent the week end.

Mrs. B. A. Cope and daughter Florence Jane, of Soaring, Fla., are spending some time with Salem and Akron friends and relatives.

Mr. and Mrs. John Wilson have moved from the flat over Taylor's grocery into part of the J. T. Smith residence, East High st.

Dr. and Mrs. J. M. McGeorge have gone to Atlantic City and Cape May where they will spend about two weeks' vacation.

Misses Margaret Kirchgessner and Anne Beers are spending a week or ten days in Columbus and Granville.

Mrs. James Herbert and children, Ohio ave., have gone to Waterloo, Ia., to spend some time with relatives.

William S. Darlington and family have moved from 169 Lincoln ave to the corner of High and Vine sts.

Mrs. Herbert McCave and daughter Neta Louise are spending a week with relatives in Cleveland.

The Misses Mary Jane Strawn and

AMERICAN WOMEN GOING IN FOR RACING

Above - Mrs. W.K. Vanderbilt II, Mrs. Payne Whitney & Mrs. Cary Grayson
Below - Mrs. Henry C. Phipps and Mrs. George W. Loft

Women are becoming important factors on the American turf, especially so since legalized betting on races has been prohibited and the "Sport of Kings" has been placed on a higher basis. Mrs. W. K. Vanderbilt 2d has just begun the purchase of a large stable of racers to carry her colors, as has Mrs. Henry Carnegie Phipps. Mrs. Payne Whitney of New York is already owner of one of the best stables on the American turf, while Mrs. George W. Loft, woman deputy police commissioner of New York, wife of the millionaire candy manufacturer, has several fast horses herself, as has Mrs. Cary Grayson, wife of Admiral Grayson, President Wilson's physician.

Dorothy Taylor are visiting in Carrollton for a week or ten days.

Miss Amelia Shope has accepted a position at the Salem Lighting company office.

DAMASCUS

Mr. and Mrs. Wilford Hall and little Marion Hall of Barnesville called on relatives here Tuesday night.

Clyde Bashaw and Kenneth Heston have returned to Damascus after a two weeks motor trip through the New England states. Since last Saturday until last Tuesday night they had driven through rain. The trip was not marred by accidents however.

The hay field on the L. W. Atkinson farm was struck by lightning Tuesday afternoon. Stubble and about one hundred pounds of hay were burned.

William Chambers of Chicago has completed a short visit with his parents here.

The W. C. T. U. met with Miss Laura Pettit Tuesday when matters of importance were discussed and officers elected. They are: President, Mrs. John Pelley; secretary, Mrs. Lorena Pearce; treasurer, Miss Laura Pettit.

Mrs. Unity Bailey was elected a delegate to the county convention to be held in Rogers next week while Mrs. Asa Pim was elected a delegate to the state convention to be held in Columbus in September.

Mrs. V. M. Chambers and Mrs. Louise Eliett were representatives of the Damascus church attending the missionary board meeting at Crestline a few days ago.

A man and woman traveling from Pennsylvania to Columbus on foot were granted permission to seek shelter on the Pearce residence porch for the night Tuesday. The couple had no money according to their own story and they claimed to have traveled 150 miles Tuesday, having been given lifts by various tourists along their way.

PYTHIAN SISTERS DEGREE

TEAM WILL MEET WEDNESDAY EVENING AT 7:30 AT K. OF P. HALL.

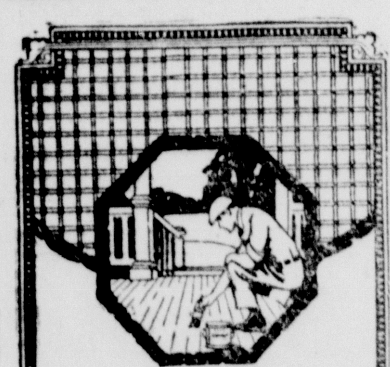

PUBLIC SALE OF PERSONAL

PROPERTY

On August 9, 1923, at 2 o'clock p. m., I will sell at public auction the personal effects of Kate Seaton Cook.

Terms of sale—Cash.

Aug 1-23-48 ED L. SNYDER.

Here's Your
Porch Floor
Paint

Its the kind you've wanted because it does the things you want a porch floor paint to do.

It stands the wear and tear of shoes and weather and keeps on smiling just the same.

Porch Floor Paint is made in six attractive colors. We'll show them to you if you'll just stop in. Its cheaper to paint than to patch.

Quincy Adams Sawyer
Coming Photoplay Hit

A cast which numbers some of the most popular actors and actresses in motion pictures today is seen in "Quincy Adams Sawyer," the Metro-

SL photoplay which is scheduled for presentation on Thursday, Friday and Saturday at the High School auditorium. It is just one of the elements which go to make this motion picture one of the truly worthwhile screen efforts of the season. Persons who have seen this rural classic in its screen form maintain it is a delightful, and at the same time, exciting and interesting picture.

In the strong cast is seen Blanche Sweet, Lon Chaney, Barbara La Marr, John Bowers, Elmo Lincoln, Hank Mann, Louise Fazenda, June Elvidge, Zazu Pitts and others.

WINONA

Among those who attended the funeral of Miss Edith Woolman, school girl who was drowned at Eagleton's glens last Sunday were a number of her former boarding school companions, in addition to a host of other friends and relatives. Some of these from a distance are:

Arthur Bluns and daughter, Cleveland; Jane Meyers, Ambrose Meyers, Edith Pickett, Jessie Edgerton, Benlah Patten, Mrs. Mary Anna Hall, and Wilford Hall and family of Barnesville; Mr. and Mrs. Oliver Bailey and Edith Brackin, of Col. jain; Alfred Whinnery, Mabel Whinnery, Dorothy Steer, Alice and Mabel Thomas, Edith Smith and Elwood Whinnery, all of Hagersville and Mr. and Mrs. Howard Parker of near Philadelphia, Pa. Others came from

TEN MATCHES RUN IN QUOITS MEET HERE LAST NIGHT

Good Gallery Follows Play
At Reilly Field; Three
Groups Formed.

The horseshoe tournament at Reilly field opened last night. Ten matches were played with a good-sized gallery following the play. Each game was for 50 points.

The players in group one are—Earl Allen, White, Reed, Toot, Thomas, Dixon, Tucker and Colburn. Group two—Pooie, Morris, Hale, Jones, Kerby, Sneyal, McGhee and Leroy Allen. Group three—Everard, Rich, Moore, Capel, Cessna, Lloyd, Whinnery and Dr. Hawkins.

A fourth group is now being organized and has three places vacant. The scores for last night's matches are as follows:

Morris, 50 points, 8 ringers; LeRoy Allen, 14 points, 3 ringers.
Morris, 50 points, 14 ringers; McGhee, 19 points, 9 ringers.
Rich, 50 points, 4 ringers; Capel, 28 points, 4 ringers.
Dr. Hawkins, 50 points, 4 ringers; Whinnery, 47 points, 4 ringers.
Morris, 50 points, 12 ringers; Kerby, 14 points, 4 ringers.
Capel, 50 points, 5 ringers; Moore, 26 points, 5 ringers.
Rich, 50 points, 5 ringers; Moore, 26 points, 5 ringers.
McGhee, 50 points, 4 ringers; LeRoy Allen, 41 points, 6 ringers.
Cessna, 50 points, 9 ringers; Capel, 22 points, 6 ringers.
Kerby, 50 points, 3 ringers; LeRoy Allen, 36 points, 4 ringers.
Matches will be played again this afternoon and evening. The grounds are open practically all the time and matches may be played at any time to suit the convenience of the contestants.

KNIGHT TO SPEAK AT HOMECOMING

Akron Man Is Principal On
Program — Donahey
May Also Attend.

East Rochester, Aug. 7. — Gov. A. Vic Donahey is to attend the East Rochester homecoming Aug. 11 if he returns from a vacation trip to Canada in time.

Reply of Gov. Donahey was read Monday night at a meeting of the East Rochester Homecoming association when plans for the annual event were completed. Gov. Donahey announced he would try to attend the meeting but may not speak.

Principal speaker for the homecoming is to be Congressman Charles L. Knight of Akron, who was a candidate for governor against Donahey. The address will be given Saturday afternoon.

Program for the homecoming will begin promptly at 10:30. Foot races and other sport events are scheduled for the morning hours.

OBITUARY

Mrs. Andrew Wagner

Mrs. Andrew Wagner, aged 44, died at 1:45 p. m. Tuesday at the home, 52 Newgarden st., after a long illness.

Sarah Grell Wagner was born in Pennsylvania where she was married, coming to this city with her husband many years ago.

Surviving are her husband, and a daughter, Mrs. Sarah Reinert, Depot rd., city.

Funeral services will be held at the Emmanuel Lutheran church at 2:30 p. m. Thursday. Rev. Sellers of the Youngtown Lutheran church will have charge. Interment at Hope cemetery.

FRANKLIN SQUARE

Miss Sweeney of Wellsburg who has taught school here the last three years is a guest of friends near town. Miss Sweeney will teach near Salem this year.

Mrs. Mary Walker with her sister Mrs. Ella Grace, went to McConnellsburg to see their sister Mrs. Sadie Jones, who is ill in a sanatorium there. A telegram was received that her condition is not so good.

Oscar Lodge and family of Lisbon were guests Sunday afternoon of relatives here. Mr. Lodge runs a bus line from Salem to Akron.

Mr. and Mrs. Frank Greenawalt were in Lorain over Sunday.

Harry Peppel and sons of Kittanning, spent Sunday in town.

Mr. and Mrs. Wm. DeRhodes, Mr. and Mrs. Bert Benner and Miss Hattie DeRhodes motored to Nelson's Lodge Sunday.

E. P. Aldridge, daughter, Mrs. Butler and Elizabeth Ferguson attended the Santee reunion at Rockhill park last Saturday.

Lucile Exten is enjoying a two weeks' visit with relatives in Wadsworth.

Mrs. Shasteen was brought to her home here last Saturday. She is improving.

NOTICE TO CITY SUBSCRIBERS OF THE SALEM NEWS
Any one not receiving their copy of the News please call Salem News Agency, phone 621, between 6 and 7 p. m. and one will be delivered.
CIRCULATION MANAGER

LEETONIA NEWS

Born, a son to Mr. and Mrs. L. R. Haskins at Erie, Pa. Mrs. Haskins was formerly Miss Edwina Holland.
Rev. J. H. Graff who with his wife have labored so faithfully and well in St. John's Lutheran church, Leetonia, and Lutheran church, North Lima, where the family residence is has received the offer and accepted a position as instructor in Thiel college, Greenville, Pa., and will enter upon his duties Sept. 1, removing to Greenville with his family some time in August.

Jack Gaughan of Pittsburgh spent over Sunday at home of his parents here.

Joe Carlisle of Butler, Pa., and Mrs. Amanda Hendricks of Canton, sister of Mrs. Helen McKelvey spent over Sunday at home of the latter.

The Kiwanis club held its last meeting of the season at Kelly's park Tuesday evening.

The Natural Gas Co. of West Virginia has notified local residents that owing to continuous high prices and advance in some cases, the necessity of securing new fields to cover the adequate amount consumed they need make an advance of ten cents per thousand feet.

Leetonia will participate with the neighboring towns in the Junior O. U. A. M. picnic at Tiffin Sunday, Aug. 4, at the National Orphans home there.

The Acme Cultivator plant will be removed shortly from Salem to Leetonia and become one of the future industries of our village. George Meeklin readily disposed of the \$20,000 stock required in the adjustment and successfully put over the proposition. The Acme company was incorporated three years ago under the laws of Ohio and is a \$50,000 corporation.

Mr. and Mrs. Clyde Sipe of Youngstown, were week end guests of F. B. Hollinger and wife East Columbia st.

JURY DISAGREES

(Continued from first page.)

key. The defense called Frank Hanney, Russell Fawcett and James Litty.

"Afraid of Badge?"
As the star witness the last man on the stand called by the defense was Earl Ritchie, the defendant admitted many of the things that Callahan alleged but said that he made no threats excepting oh that which each witness testified he heard. That remark was made by Ritchie after he had shoved Callahan down the street.

"If it's the badge you are afraid of, I'll haul you clear out of the county," inferring, the state said, that he would fight Callahan, and threatening him.

The statute under which the case was heard reads:

"Whoever unlawfully assaults or threatens another in a menacing manner, or unlawfully strikes or wounds another, shall be fined not more than \$200, or imprisoned for not more than six months, or both."

Atty. Hickling, in his closing plea to the jurors, asked them to find the defendant guilty because Ritchie had unlawfully assaulted Callahan even though no marks were on Callahan, because in the eyes of the law a touch on the shoulder of any man acting in a lawful manner as was Callahan by an officer of the law is assault.

One interesting fact that the trial revealed was testimony of Ritchie that he was a constable, merchant policeman, and state prohibition inspector.

LISBON NOTES

Clerk Back From Vacation

Miss Maude Frederick, clerk in the probate court, returned today from her vacation.

Wife Granted Divorce

Frances Lenze of Leetonia today was granted a divorce decree and restoration of her maiden name, Frances Moore, after a hearing before Judge Moore in common pleas court, no defense being raised by the husband, Robert C. Lenze, of Struthers, Pa., whom she charges with extreme cruelty.

Lisbon Pastor Weds Couple

Rev. P. E. Carson, pastor of the United Presbyterian church here, today united in marriage Miss Geneva A. Blezy and Raymond M. McClain, both of Salineville.

James Forbes, formerly of Lisbon, now cashier of the Clintonville bank at Clintonville, Pa., is visiting his parents, Mr. and Mrs. Melvin Forbes of Lincoln way, during his vacation.

Mission Shows How To Save The Babies

Citizens who live in communities apathetic to their infant death rate should consider carefully the results of the co-operative rural health work now being carried on in Green county, Missouri. A report just received by the United States Public Health Service at Washington shows a remarkable reduction in the infant mortality rate in Springfield and Campbell townships since the establishment there of a whole-time county health department.

In 1918 the death rate in these two Missouri townships was 105 per thousand. In 1919, the infant death rate in these two townships dropped to 96 per thousand. In 1920 it went to 85, in 1921 to 76, and in 1922 the decline reached 61. In other words Springfield and Campbell townships reduced infant mortality 42 per cent in four years.

This 42 per cent reduction furnishes a striking example of what may be accomplished in infant welfare by carrying out, with economy and efficiency, a well balanced general program of health work.

WASHINGTONVILLE

Miss Ethel Moss returned to her home in Deerfield Sunday, having concluded a visit with her cousin, Miss Thelma Vignon.

Mr. and Mrs. E. A. Cook, Greenford, spent Sunday at the home of Mr. and Mrs. Walter Smith.

Mrs. Robert Sanders and Mrs. Morris Weller visited Tuesday with Mrs. John Sanders, west of town.

Mrs. Charles Sneddon and son, William, shopped in Salem Tuesday.

Mrs. Belle Mathie visited over the week-end with relatives in Youngstown.

Edward Rowan has gone to Uniontown, Pa., to be with his father.

Mrs. L. W. Lederly and infant daughter returned home Sunday from the Salem City hospital.

The girls of the M. E. Sunday school, taught by Mrs. Charles Humm, enjoyed a picnic at Kelly's park Tuesday.

Mrs. Robert Dixon and daughter, Mary Jane, Pittsburg, who have been visiting with Mr. and Mrs. Fred Davis have gone to East Palestine to visit relatives.

The Misses Ruth and Charlyte Bossert are spending their vacation at Lake Brady.

Fred Slack of Pittsburg is visiting with Mr and Mrs. David Welkart.

Clifford Herron is spending the week with relatives in Greenford.

William Rohr is driving a new Chevrolet touring car.

Clara Zeigler of Honohula, a former resident of Washingtonville, is visiting relatives here.

Mrs. O. Bossert and daughter, Ruth, and Mrs. C. H. Welkart were Salem visitors Tuesday.

D. R. Jackson and son, Glen, and Jacob Parry made a business trip to Wellsville Monday.

PLANNING AROUND WORLD FLIGHT

ARMY AIR SERVICE GOES AHEAD
WITH PROJECT APPROVED
BY SECRETARY WEEKS.

SURVEYS HAVE BEEN ORDERED

Lieutenants Crumrine and Nutt will investigate facilities in foreign countries and special committee will then arrange the details.

Washington.—It is quite likely that within a year several American army airplanes will have started on a flight around the world. Secretary of War Weeks has authorized the army air service to make investigations to obtain information as to meteorological conditions, landing facilities, harbor situations, anchorage, transportation, airways, etc., over the Atlantic and Pacific oceans this summer in connection with a final estimate of the practicability and cost of making the flight and the service is going ahead with the project.

Lieuts. Clarence E. Crumrine and Clifford C. Nutt will make preliminary surveys. Moreover, the chief of the air service has appointed five officers of his service to investigate and report upon the project in all of its phases.

Lieutenant Crumrine, who was a member of the successful airplane expedition to Alaska and return in 1922, will survey Greenland, Iceland, the Faroe Islands, British Isles, France, and Italy as soon as the necessary diplomatic arrangements can be completed. At the same time Lieutenant Nutt, who also was a member of the Alaskan expedition, will proceed through Japan and the Kurall Islands to the Aleutian Islands and Alaska to investigate the facilities for flight over those areas.

The committee of five members will make a final report after completion of the investigations by Lieutenants Crumrine and Nutt, and it will include recommendations as to type of planes, the personnel, the route to be followed, the general organization of the flight, and the necessary advance parties that must distribute supplies and equipment prior to the event.

Work for Special Committee.

This special committee is headed by Capt. William F. Volandt, who will furnish information in regard to transportation and finance. The other members are Lieuts. St. Clair Street, Robert J. Brown, Erik H. Nelson and Crumrine. Lieutenants Street and Brown will conduct the necessary liaison with other services for information relative to meteorological conditions, investigate the location of landing fields in relation to the best season for the making of the flight and study the organization of the flight based on the experience gained in the Alaskan and Porto Rican flights and report on the distribution and allocation of supplies. Lieutenants Nelson and Crumrine will consider equipment and make recommendations as to the type of plane to be used. This part of the problem will include a survey and comparison of all types of air planes available in this country for long-distance flights.

It is believed that not more than six or less than three planes will be assigned to make the flight, which probably will proceed from the west coast, possibly Seattle, cross the United States in the general direction of prevailing winds, and thence proceed by way of Newfoundland, Greenland, Iceland, British Isles, France, Italy, Asia Minor, India, China, Japan, Kurall Islands, Alaska, down the west coast of Canada and back to Seattle.

As to the cost, it is estimated that, by making maximum hops of from 1,000 to 1,500 miles, the flight can be accomplished well within \$100,000, an amount that in all probability would not require a special appropriation by congress.

Commander for the ZR-3.

Capt. George W. Steele has been named as the commander of the dirigible being constructed at the Zeppelin plant in Germany, when and if the ship arrives in the United States. He will watch the final work on the ship and accompany the German crew on the trans-Atlantic trip to Lakehurst, N. J., this fall.

The ZR-3 is somewhat smaller than the ill-fated ZR-2, the British-built airship which fell in the Humber on its trial trip.

The ship was contracted for at the council of ambassadors, and can be used only for commercial purposes. It will not become American property until it is landed in America.

The ZR-3 will be the largest dirigible in the world, having a length of 690 feet, a maximum width of 92 feet and a height of 100 feet. It will have a capacity of 2,400,000 cubic feet. Its length will be slightly exceeded by that of the ZR-1, which will be 680 feet long, but the other dimensions of the latter ship will be smaller. The width of the ZR-1 will be 70 feet, its height 90 feet and its capacity 2,115,000 cubic feet. The capacity of the ZR-2, the giant of them all, was 2,724,000 cubic feet. The cost of the ZR-3 is estimated at \$2,000,000.

No More Whim.

Persons who want anything know that The News is the Want Medium.

Rheumatic Neuritis

SAYS HIS PRESCRIPTION COMPLETELY BANISHES ALL RHEUMATIC PAIN AND TWINGES—IS GUARANTEED

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours

Every druggist in this county is authorized to say to every rheumatic sufferer that if a full pint bottle of ALLENRHU, the sure conquerer of rheumatism, does not show the way to stop the agony, reduce swollen joints and do away with even the slightest twinges of rheumatic pain, he will gladly return your money without comment.

ALLENRHU has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiable and where the patient was helpless.

Mr. James H. Allen, the discoverer of ALLENRHU, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless ALLENRHU decisively conquers this worst of all diseases, and he has instructed druggists to guarantee it as above in every instance. All druggists can supply you.

COURT NEWS

The following entries were made in the common pleas court docket yesterday afternoon by Judge Moore.

In the matter of J. E. Rice, administrator, against G. E. Sharp and others; Judgment was entered by default, and an order to sell property mortgaged to secure a note given to the estate was made.

The cases of Howard A. Leith against A. W. Hineman and the Scott Lumber company against A. W. Hineman, all of Wellsville, were dismissed at the plaintiff's requests and at their cost.

Judgment of \$8,684.93 was allowed the plaintiff in the action brought by Albert Fernal of Fairfield township against S. N. Rider. This was an action brought to recover money on a mortgage given in the purchase of property.

WILL POISON-PEN CASE EVER BE SOLVED?

Below—Mrs. Florence Hunt & George Maxwell
Below—Mr. & Mrs. Albert Gallatin & Mrs. Camille Gayard
Below—Mrs. George Maxwell & Mrs. George Maxwell
Below—Mrs. George Maxwell & Mrs. George Maxwell

With some of the most prominent people in the east involved, the mystery of the world-famous "poison-pen" case may never be solved. Judge McIntyre, in New York, has dismissed the indictment against wealthy George Maxwell, president of the Society of Authors, composer and publisher, who had been indicted on the charge of writing scurrilous letters to Allan A. Ryan, son of Thomas Fortune Ryan, in which Mrs. Ryan's name was coupled with that of Maxwell.

Maxwell himself received many similar letters. He announces he will sue Ryan for slander. Seven prominent women, whose names had been coupled with Maxwell's in poison-pen letters, were mentioned by the state in an effort to prevent the dismissal of the indictment. Mrs. Camille Gayard, member of the Danroch Opera company and wife of Emil Fischer, German basso, was the first woman mentioned. Mrs. George Huber, of a prominent Philadelphia family, also was named, as was Mrs. Phoebe Hunt, a motion picture actress. Mrs. Albert Gallatin, another society woman named, asserted Maxwell had aided her and her husband in their efforts to find the author of the letters. Eva Guthrie, concert singer, was also mentioned as a recipient of the letters.

West Point Miner Hurt
James Vioello of Chestnut st. 113-bon, employed at the West Point mine of the Saeger Fuel Co., was badly injured by a fall of rock at the company's mine yesterday afternoon. The man was brought to the surface and rushed to his home here. Dr. Hugh Maxwell, after an examination, stated that the man was badly bruised and

cut but that unless internal injuries developed he had a good chance for recovery. Vioello is married and the father of five children.

Pimples

BLOOD impurities are pumped by the heart into the face. That is what causes that grainy appearance, that muddiness, sallowness, pimples, blackheads, acne, red spots, and that impossible "something" which no face cream, massage, or face powder can cover up or beautify! The foundation for a beautiful skin simply is not

there, and no face treatment can give it to you. But increase your red-blood-cells—and quickly the ruby tint of purity begins to glow in the cheeks, the complexion becomes venus-like and immaculate! Try it. It will do it every time. S.S.S. builds the red-blood-cells you need for a beautiful complexion. Begin using S.S.S. at once, and give yourself what you have been working for, for years.

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

CRABBE AND BECK EXCHANGE NOTES

Responsibility in the Dollings
Case at Issue.

COUNTY INQUIRIES REQUESTED

Columbus, Aug. 1.—Attorney General Crabbe has taken cognizance of the case of the R. L. Dollings company and has asked prosecuting attorneys of all counties in the state to investigate activities of the investment brokerage concern, recently placed in the hands of a receiver. In his letter to John G. King, Franklin county prosecutor, Mr. Crabbe said that he wanted the company and all its subsidiaries investigated preparatory to prosecuting those responsible for "robbing the people of nearly \$200,000,000" to the fullest extent of the law.

"Through the cunning of the master minds of the Dollings company, a sales organization was built up which consisted of scores of the most prominent men of the various counties," said Attorney General Crabbe in a statement issued at the time of his letter to Mr. King. Many of these men had no knowledge of the corrupt designs of those higher up and had no intent to do wrong. However, there may be agents throughout the state who have violated the law in the sale of this stock and I shall request the county prosecutors to investigate all questionable transactions."

Mr. Crabbe also took the securities department to task for not revoking the license of the company. Norman E. Beck, head of the securities department, promptly replied by saying that the attorney general had never cooperated with the department in prosecuting blue sky violations when the evidence was turned over to him. Responsibility for the Dollings affair was disclaimed by the commissioner.

The attorney general, replying to statements of Mr. Beck that he had not co-operated with the securities department in the prosecution of stock sale swindles, declared that but nine such cases had been certified to him by the securities department and that in each case they had been promptly sent to the proper prosecuting attorney. "In several of these cases the investigation had been of such character that the prosecuting attorneys were unable to make a case," said Mr. Crabbe.

According to Dr. G. A. Hyde, superintendent of the Massillon state hospital, restrictions of the traffic in intoxicating liquors has reduced the number of new cases of alcoholic insanity at the Massillon institution fifty per cent or more.

In his annual report for the fiscal year ending June 30, Dr. Hyde says that from June 30, 1922, to June 30, 1923, only 19 patients suffering from alcoholic psychosis or alcoholic insanity, were admitted to the institution. This number is less than half that of the preceding year and much less than half the number admitted annually prior to the enactment of the national dry law of 1919, the superintendent declares. Restriction of the sale of liquor in the next few years will tend to reduce insanity, Dr. Hyde predicted. "This evil is one of the greatest factors in causing mental diseases," he says.

In the face of Dr. Hyde's statistics on alcoholic insanity, however, the report showed that both the total number of patients at the hospital and the total admissions for the fiscal year had increased over the previous twelve months. The population of the institution at the end of the year was 2,204, while 725 had been admitted compared with 655 for the previous year. The increased admissions were attributed to the rapidly increasing population rather than to an increase of insanity.

Mental trouble is more common among city dwellers than people from the rural districts, the report points out. Stress and strife and the general activities of city life as compared with the quiet existence of the country is given as the cause of this situation. Economic conditions also are factors.

ARE WOMEN OVERWORKED?

Yes, hundreds of thousands of them are. This applies to the housewife and mother who struggles on a small income to make both ends meet by doing all the washing, ironing, cooking, making and mending for a large family. There are others who not only support themselves working in factories, shops, stores, and offices, but often have an invalid father or mother to support, therefore do housework beside. These are the women who break down early and are afflicted with various forms of female weakness. Ninety-eight out of every 100 women who have tried Lydia E. Pinkham's Vegetable Compound have proved that it is a successful remedy for women's ills. For nearly fifty years it has been restoring women to health, and it will pay every ailing woman to try it.

The great steamship Leviathan, can carry passengers enough to fill a good-sized country town, nearly 5,000 in all. But this number is nothing to her actual carrying capacity,

Under the Freeman-Comister act, passed by the last general assembly, and which became effective yesterday, motor bus transportation in Ohio has gone under complete commission. It is estimated that there are more than 400 bus lines in Ohio and that they carry an average of 1,500,000 passengers each month.

Under the new law, bus companies not operating up to this date will have to obtain certificates of necessity and convenience from the commission.

The law further provides: That bus operators must file with the commission the routes over which they operate, their time schedule and rates, and that they must live up to these schedules; that companies must file a liability policy or bond satisfactory to the commission and sufficient to protect the interests of the public; that 50 per cent of all taxes collected from motor vehicles carrying passengers or merchandise shall go to the state, and 50 per cent to the municipality or county in which the line operates, providing, however, that the entire sum of the taxes must be used for the maintenance of highways.

A graduated tax based on capacity of passenger buses and those hauling freight is also provided for in the new law. The public utilities commission is working out a set of regulations to govern the operation of buses. Such regulations are to prevail over local regulations, the act specifies.

In a letter to Attorney General Crabbe, Governor Donahay asked for an opinion as to whether the ownership by George T. Poor of stock in the Cities Service company, which controls a number of operating public utilities companies, does not disqualify Poor as a member of the state utilities commission and constitute basis for his removal from office.

The law applying to membership on the utilities commission specifies that no person holding stock or bonds in a utility corporation "or is in any manner peculiarly interested therein," is qualified to be commissioner and that office of an appointee who falls within reasonable time to "divest himself of such ownership" shall be vacated.

Donahay, early in the year, asked for Poor's resignation, together with that of Frank Mauller, Chillicothe Republican, also a member of the commission. Both refused to resign.

Provisions of the revised Ohio traffic code, which became effective Thursday, were designed to strengthen and extend laws and to reduce the death toll from autos in Ohio. Its primary object is safety. Deaths from autos in Ohio are increasing each year. In 1921 there were 734 victims in the state. In 1922 the total was 833. So far this year, auto killings in Ohio have shown an increase over last year.

It is the design of the new traffic code to eliminate at least some of the hazards. Speed is restricted to 15 miles an hour in closely built-up portions of municipalities, to 25 miles an hour in other portions and to 35 miles outside of municipalities. Careless operation is forbidden. This is defined as driving without due regard for the safety and rights of pedestrians and drivers and occupants of other vehicles or in such a manner as to endanger their life, limb or property.

Violators of these sections shall be fined not less than \$10 or more than \$100 for first offense. Second offense brings a fine of from \$25 to \$100 or imprisonment for not more than 10 days, or both. However, if a violator of the speed provision exceeds any of the three speed limits by 10 miles an hour, a five-day prison term may be added to his fine for the first offense.

Careful driving on the road is enjoined by the new law. Here are the provisions:

Vehicle overtaking another shall signal to the one in front and the latter shall immediately turn to the right and let the former pass.

Driver changing course, turning or stopping, shall give signal, and be sure it is seen before completing such movement.

Vehicle turning to left into another road shall pass to the right of the road and beyond center of intersection before turning.

Driver shall yield right of way at intersection to vehicle approaching from the right.

Vehicles in highway have right of way over vehicle trying to enter flow of traffic from standing position, alley, building or private property.

Vehicles and street cars on main thoroughfares have right of way over those on intersecting streets. Main thoroughfares are designated as all streets and highways upon which street or interurban cars run and also all main market and intercounty highways.

All vehicles must keep to the right of the road and a vehicle overtaking another shall pass on the left.

Vehicles stopping in a highway must have both right hand wheels within one foot of the edge of the road.

Part of Claim Allowed

Judge Middle, in probate court held an estimated hearing yesterday for \$545.37 advanced by E. A. Alexander as administrator of the estate of Anna Alexander of Homeworth. The claim is made for the care and nursing of Mrs. Alexander during her last sickness. After hearing the testimony of several witnesses the court allowed \$234.65.

CRUIKSHANK CRUBRO PRESERVES Strawberry

Better Than Home Made—Costs Less

Let Cruikshank do your Strawberry preserving. The short fruit season and prohibitive sugar prices, not counting time and labor, make home preserving a very expensive proposition.

The Cruikshank method of preparation retains the whole fruit, the original berry juice flavor and all the tempting goodness of big ripe strawberries to the last bite.

Crubro Strawberry Preserves are better than home made and cost much less. They have no equal at the price, considering their high quality and the quantity contained in the convenient Keystone Jar package.

"WAIT A MINUTE" Irritates Many People

DOES your office girl sometimes "get Brown on the line" and then ask him to "wait a minute" while she calls you to talk to him?

Did you ever stop to consider that Brown may not like this very well? He may think that you are imposing on him.

Of all bad telephone habits the one most universally condemned by business men is the

"wait a minute" habit. It is a habit that not only causes loss of time and business friendship, but often turns away profitable trade.

When you start a call, the courteous, business-like thing to do is to remain at your telephone and be ready to talk.

When you receive a call do as you want people to do when you call—answer promptly.

The Proper Use of the Telephone by Everyone
will Make the Service of Greater Value to ALL.

Fight Body Fears Dempsey-Firpo Go May Ruin Sport

New York, Aug. 1.—The Dempsey-Firpo enterprise will be discommen-
ced by the state commission, be-
cause it will ruin boxing in New York.
The enterprise will not be discommen-
ced. Harry Wills is to take pre-
cedence over Firpo in the eyes of the
commission. Wills will do nothing of
the kind. The Firpo affair will be
postponed because the Argentine
needs further experience. It will be
permitted to go on because the Argen-
tine is deemed to be absolutely ready.
Tex Rickard is to be denied a li-
cense to conduct the bout at the Polo
Grounds because the commission, and
more particularly the state license
commission, does not care for Rickard's
taste in waistcoats. Rickard's
shift in his base operations cannot be
opposed because he is not, in effect,
the promoter, but the matchmaker.
These are a few of the perfectly
reliable forecasts of the action that
will be taken at the commission meet-
ing today. Add that of Rickard him-
self and the defense will rest its case.
On the word of the promoter, who
usually has a few at his disposal, the
bout will neither be postponed or
declared out of order.

"You can say for me that Dempsey
and Firpo will box at the Polo
Grounds Sept. 14, as originally an-
nounced by me," Rickard declared
early today. There will be no
postponement. In this connection, I
want to say that Firpo's lack of knowl-
edge of our language has probably
caused some one to misquote him.
He informed me that he was absolutely
confident he could beat Dempsey
when the match was made. At any
rate, a postponement would interfere
seriously with my plans and there-
fore is not satisfactory to me."

Meantime an application by Rickard
or others for a license to hold the
bout at the Polo Grounds on the date
named is not on the calendar of busi-
ness before the commission today. It
is authoritatively stated. Neither is
the proposed harangue of Paddy Mul-
lins, manager of Wills, demanding
justice and a share of the receipts for
his man.

As a matter of fact, application for
permission to conduct the Dempsey-
Firpo bout need not be made until
eight days before the date set, and in
any case, it will be made by Charles
A. Stoneham, the real promoter of all
activities at the Polo Grounds. It
to be kept in the background as much
as possible in order to ponder to the
prejudices of the commission, which
is said to have conceived an aversion
to the leading promoter.

Be that as it might, Rickard is cer-
tain to be active in the control of any
fight in which Firpo might engage
with Dempsey.
